The Four Pillars

Whilst each recipe has been curated to nourish all of the four pillars, highlighted icons indicate those that contain elements to enhance specific pillars.

MIND

The Mind is responsible for thinking, feeling, and making choices, as well as directing our emotional, psychological, and social wellbeing.

Our mind is the gravitational field that determines how we express ourselves, handle stress and relate to others.

MICROBIOME

Referred to as the second brain, the gut's Microbiome plays a key role in human health by breaking down and absorbing nutrients and strengthening the immune system.

When the gut is healthy, the other pillars thrive.

SKIN

Skin is the largest body organ with its own microbiome. By focusing on the skin health, we nurture the body, restore natural beauty and reverse ageing, impacting many areas of life, including self-confidence.

ENERGY

Energy is a journey of the body, expanding through conscious movement. This pillar reflects how we sustain and renew physical energy to have the capacity to keep thriving. Regular intervals of self-care, restoration, and recovery help to re-energise ourselves, even during high-paced periods.
