

JOALI BEING

## ART HOUSE

Designed as a luxurious wellbeing nature immersive island retreat, JOALI BEING focuses on sustainable glamour. The resort's elegant 68 private beach and water villas with private pools are the epitome of sustainable glamour. A destination brimming with experiential pieces, simply follow an art map around the resort for an immersive and interactive tour. Created in collaboration with artists and local artisans to support the surrounding community, JOALI aims to revive Maldivian artisanal work – a movement you'll feel great taking part in while blissing out on island life.

At JOALI BEING you will find our Art House located at the heart of the resort, opposite MOJO, lead by resident artist Kurahaa Rappe, one of the best and most versatile artists in Maldives, on top of his field for more than 22 years.

Within our Art House you will find displays of multi-talented artist pieces, from sculptures to paintings to tapestry to clothing pieces, and many more, each made by an artist under the guidance of Rappe. Concept development, idea execution and attention to detail was their main aim focus.

Inspiration, like joy, is contagious. Our exclusive art studio nurtures local arts as well as art-lovers through interactive events and workshops. The Art House & Gallery hosts guest artists who create interactive art projects and nature-inspired collections so you can experience art as a participant and nourish your creative side throughout your stay.
